

- Magnetic tool that assists internal routing by guiding adapters through the frame.
- Built-in awl helps restore cut housing ends for easier attachment with adapter and cable insertion.
- Contents include 4 x individual adapters, a lead wire and a flexible magnetic extension.

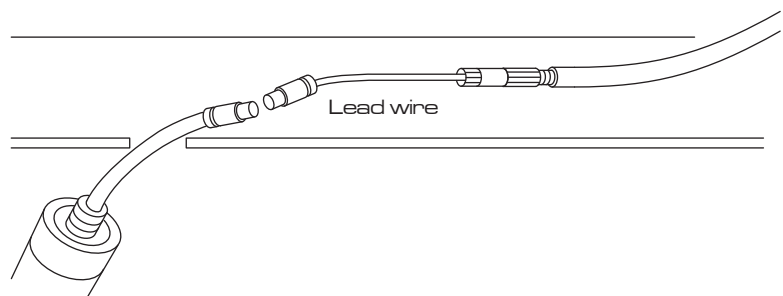

**Instructions of Use :**

- $\varnothing 4$  &  $\varnothing 5$ mm housings
  - Lead wire
  - Old housing
  - New housing
  - Housing
- $\varnothing 5$ mm hydraulic hoses
  - Lead wire
  - Hydraulic hose
- Shimano® Di2 wires
  - Lead wire
  - Shimano® Di2 wires
- $\varnothing 1.2$  &  $\varnothing 1.5$ mm cables
  - Cables

• Fabric-covered tip protects frame from scratches when guiding adapters.

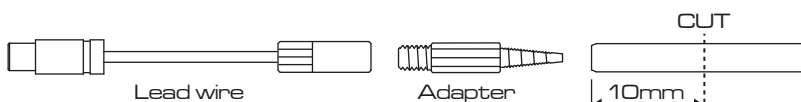

• Magnetic Extension helps retrieve lead wire /adapter from the exit port.

**Note:**

- Please trim off damaged / frayed cable ends or uneven housing ends to allow secure attachment with the adapter.
- Once the adapter is removed from a hydraulic hose, please cut 10mm off the end to ensure engagement with the brass insert.

- All tools should be stored in a dry environment.
