

- Supplementary Velcro at rear end provides additional capacity of carrying extra inner tube and tyre levers
- Fits bottles with diameter ranging from 72mm to 75mm.

Instructions of use :

- Insert Velcro through the hoop.

- Wrap Velcro around the items then around the bottle cage.

Note:

- Please ensure that the Velcro is threaded through the hoop at the rear end.
- The Velcro is not of anti-slip nature, and does not guarantee secure attachment of objects other than inner tube and tyre levers.
- The hook side of the Velcro can be trimmed according to required length.
